

RPMS-HEALTH SUMMARY COMPONENT

Version 1.0 Patch 16 Release Announcement

April 2020

The Indian Health Service Office of Information Technology and the RPMS-EHR Program announce the following application release:

- RPMS-Health Summary Component, Version 1.0, Patch 16 (RPMS namespace: BHS)
- This version/patch is not needed for EHR certification and/or meaningful use, however it is critical to our efforts to improve tracking of COVID-19.

A release notice from the IHS Office of Information Technology has been sent to all RPMS site managers, and site managers are advised to notify users once the application has been installed. Complete details of the modifications included in this release are included in the official release notice.

Thank you to our beta test sites, Claremore and Indian Health Care Resource Center (Tulsa) for their assistance with this release.

Overview of Changes

Enhancements/New Features

- None

Problem fixes/Routine updates (see patch notes for complete list)

- Update BHSENC and BHSENC2 routines to include telemedicine (“M”). These routines affect adhoc Health Summaries PCC OUTPATIENT ENCOUNTER and PCC OUTPT VISITS (EXCL CHR)
