October 4, 2022

# Overview

# ***PRIME+**: Peer Recovery Initiated in Medical Establishments + HCV/HIV Testing and Linkage to Treatment*

## **Oregon peer-based intervention...**

- ▶ working with people who are at risk of or receiving treatment for overdose, infection, and other health needs related to substance use

## **PRIME+ peer services are...**

- ▶ offered independently of engagement in substance use treatment, providing non-Medicaid reimbursable services
- ▶ provided by people in long-term recovery, credentialed as peer specialists, trained in harm reduction and infectious disease prevention

# PRIME+ Locations

**58 peers**

**24 counties**

**19 organizations**

**3 regions: North, South, East**

Services developed in many rural and frontier counties that had no history of peer outreach or harm reduction services

# PRIME+ Core Program Elements

- ▶ Peers support **any positive change** for people who use drugs
  - ▶ Support peoples' self-identified **goals** for health, well-being, and quality of life
  - ▶ Provide **harm reduction** support and tools
  - ▶ Connect people to **recovery supports** and substance use treatment
  - ▶ Link people to **healthcare**, including infectious disease care
- ▶ Program supports peer specialists to **maintain their own recovery** and well-being and **expand professional skills**

# How People Connect to PRIME+ Peers

1. Community partners make **referrals**
2. Peers do **direct outreach** to engage individuals in the community
3. Individuals can **self-refer**

# PRIME+ Peer Services

## Support accessing resources

- ▶ OHP enrollment, resources for basic needs
- ▶ Harm reduction supplies like safer use kits, naloxone
- ▶ Supported employment, housing resources

## Person-to-person support

- ▶ Emotional and crisis support
- ▶ Support people to reach self-identified goals

## Linkage to treatment/care

- ▶ Substance use treatment and recovery supports
- ▶ Physical healthcare
- ▶ Infectious disease testing and treatment

# Training & Cross-Site Support

## Learning

- ▶ Orientation and training for new peers/supervisors
- ▶ Peer Learning Collaborative (monthly)- CEUs
- ▶ Supervisor Learning Collaborative (quarterly)- CEUs
- ▶ Drop-in TA for documentation (monthly)

## Cross-site sharing and project communication

- ▶ Active Basecamp message board
- ▶ Peer huddles by region (weekly)
- ▶ Supervisor meetings by region (monthly)

# Resources & Reporting

## Resources

- ▶ Program implementation guides, topic handouts
- ▶ Training recordings
- ▶ Promotional templates

## Documentation

- Online database (RecoveryLink) tailored for PRIME+:
- ▶ Participant characteristics, peer services provided
  - ▶ Outcomes: GPRA at intake and 6-month follow-up

## Evaluation

- ▶ Monthly site progress reports for ongoing monitoring
- ▶ Quarterly briefs highlighting site success stories
- ▶ Annual summary report, biannual report to funder

# Numbers Served

# Peer Services Participants

**3,417** PRIME+ peer services participants

**51%** received three or more contacts from a peer

**20,256** total **participant contacts** with a peer

# Klamath County

**247** PRIME+ peer services participants

28 American Indian/ Alaska Native, 30 Hispanic/Latinx

# PRIME+ Program Successes

- ▶ Peers making changes in their communities
  - ▶ Partnerships with other agencies
  - ▶ Advocacy to build community support for harm reduction
- ▶ Direct peer outreach occurring
  - ▶ Harm reduction supplies distribution
  - ▶ Engagement with new participants
  - ▶ Visibility
- ▶ Statewide peer network built
  - ▶ Peer workforce professional development & cross-site support

# **PRIME+ Peer Approach**

*I am a peer mentor with [agency].*

*I have lived experience of substance use.*

*The project I work with is called PRIME+ and we provide peer support services such as handing out Narcan or providing transportation to appointments.*

*If you're interested in participating, I will not ask you to stop or change your use if you don't want to.*

*Our focus is to understand what you need and want and work together to make those things happen.*

*What I don't know, we can figure out together.*

***I don't want you to lose hope when things feel hard.***

# Centering in Harm Reduction

- ▶ What centers any program in a harm reduction approach?
  - ▶ Go to the people– don't make people get there and walk thru door
  - ▶ Ask people what they and show up with it (supplies, incentives, etc.)
- ▶ What are key elements that help people make positive changes?
  - ▶ Feeling safe (including not being judged)
  - ▶ Being safe (protecting confidentiality)
  - ▶ Seeing a way to contribute

# Believe in the Power of Peers

- ▶ Harm reduction and recovery communities have been doing this for decades-- only recently that it has been accepted in the professional community
- ▶ Peer approaches are evidence-based
- ▶ Peers "Go at the Speed of Trust"
- ▶ Peers enhance the efforts of others and reduce bias and stigma
- ▶ Peers fill gaps that other community partners can not meet

# What Does a Harm Reduction-Centered Peer Program Need?

- ▶ Peer and supervisor site training and orientation
- ▶ Ongoing technical assistance and monitoring of the model
- ▶ Power sharing and a team approach
- ▶ **Peers as partners in the intervention and experts with lived experience**
  - ▶ The knowledge of people with lived experience helps make connections and gives hope
  - ▶ CHW's and Navigators with adjacent experience are not the same as recovery peers

# Questions for this group to discuss

- ▶ What barriers do we face to using peer-based harm reduction interventions?
- ▶ What would it take to implement peer-based harm reduction programs with built-in
  - ▶ CEU trainings?
  - ▶ Peer recovery support?
- ▶ How would we seek funding for peer-based harm reduction strategies?
- ▶ How can we increase availability of harm reduction interventions such as
  - ▶ Housing First models?
  - ▶ Supportive employment models?

**Questions?**
