MUSCOGEE NATION ADDICTION ,HCV AND HIV SERVICES

- Innovations to improve health of AI and improve safety on the reservation
 - Drug take back events/disposal facilities
 - Narcan training events at area schools
 - Hygiene bags
 - Lock boxes
 - Drug disposal pouches
 - Fentanyl test strips
 - Collaboration with communities, local schools and Lighthouse
 - Decrease stigma towards people who use drugs
 - Assistance with housing, job training, transportation
 - Planning underway for large detox/residential/outpatient SUD facility on MN Reservation- more news to come
 - Hopefully will be planning to expand to methadone as fentanyl crisis continues to exceed BUP success
 - SSP hopeful

CONCLUSION

TIPS/QUESTIONS?

- Meet patients where they're at
- Don't assume they know their risks or will ask for testing/services – assess all patients equally regardless of reason for visit*
- Use your motivational interviewing skills
- Reassess patients at regular intervals (3-6 mos)
- Be gentle and kind
- Embrace your own experiences
- Advocate for change
- Encourage your staff, be the champion at your site

WADO!

- Special thanks to :
- Joshua Cody Knight, SPTHB
- Jorge Mera, MD Cherokee Nation ID
- MAT and TOR grant staff
- Muscogee Creek Nation Department of Health
- MA Shelby Gentle and of course my patients!
