

Academic Relationships

Great Plains Area history and experience

Crisis situation created opportunities in Great Plains Area (GPA)

- 2015 Rosebud ED shut down due to multiple CMS CoP failures:
Opened up possibilities to collaborate
- 2016 Rosebud enters into first academic relationship with MGH to provide OPC services
- Included rotating mid-level provider students and rotating faculty
- 2019 Rosebud enters into IPAs with multiple MGH physicians to provide hospitalist coverage

Cheyenne River Health Center (CRHC): 2021

1. Entered into IPAs with Mt Sinai ED physicians to provide rotating ED coverage with faculty and residents at CRHC
2. Entered into IPAs with Boston Children's Hospital and U. Minnesota physicians to provide pediatric OPC and hospital coverage

Pine Ridge Service Unit

- IPAs University of Washington for Hospitalists

Successes

- All academic relationships have been a resounding success for I.H.S.
- BCH has expanded to the Turtle Mountain Service Unit in Belcourt, ND
- MGH is providing Pain Management leadership, ASP Leadership, education to providers and ancillary staff, and Hepatitis C consults to several Service Units in the Great Plains Area (GPA)
- Mt Sinai has provided advanced training to CRHC ED staff both remote and onsite
- All relationships have improved Medical Staff engagement and morale

Access to care

- Transportation

Emergency Dept

Primary source of healthcare for several of our patients

Maximize opportunities

- Primary access point for care
- Add resources/personnel
- Care coordinators/case managers
- RNs/RPhs Immunizations
- Establish OPC or at home visits

Community Outpatient Services

- Mobile clinics
- At home visits
- Internet
- Technology
- Lab
- Pharmacy

Future

- ED primary care: encouraging patients to also be seen in OPC for care in real time or via case management
- Fully integrating Behavioral Health into ED and OPC
- Technology advances to allow primary care in remote villages

Future

- Partnerships: optimizing the care we provide our patients
- Preventative medicine: greater integration into the communities
- Spiritual
