

Indian Country ECHO – Ending the Syndemic: Syphilis Training

Staff serving American Indian & Alaska Native people are invited to participate in the Ending the Syndemic: Syphilis ECHO training. As part of a syndemic response to the interrelated disease states of Hepatitis C Virus, HIV, Substance Use Disorder, and Sexually Transmitted Infections, the 2.5-hour virtual training program provides comprehensive information to effectively integrate best practice syphilis care and response for Indigenous communities. The training program includes an opportunity to engage in didactic presentations, become part of a learning community, and join an Infectious Disease ECHO program. Free CE is available.

Training Location: Virtual; Registered participants will be sent connect details on how to join via the zoom platform

May 28 (note all times PT)
