

Indian Country ECHO – Ending the Syndemic: Harm Reduction, PrEP & PEP Training

Staff serving American Indian & Alaska Native people are invited to participate in the Ending the Syndemic: Harm Reduction, PrEP and PEP: Preventing HIV training. As part of a syndemic response to the interrelated disease states of Hepatitis C Virus, HIV, Substance Use Disorder, and Sexually Transmitted Infections, the 2.5-hour virtual training program provides comprehensive information to effectively integrate Harm Reduction, PrEP and PEP services for Indigenous communities. The training program includes an opportunity to engage in didactic presentations, become part of a learning community, and join the Infectious Disease ECHO programs. Free CE is available.

Training Location: Virtual; Registered participants will be sent connect details on how to join via the zoom platform

February 27th (note all times PT)
